

EVA JUNIOR FELLOWS

EVA Junior Fellows Network for exceptionally talented international students, researchers and young graduates was launched in 2003. The aim of the network is to build partnerships between young talents and the Finnish business community. EVA selects every year approximately 25 new Junior Fellows for a period of two years. The group consists of international Finns residing abroad and non-Finns residing in Finland or abroad.

Junior Fellows are invited to a two-day seminar, which is organised in Helsinki at the end of August every year. The seminar provides the participants a chance to learn more about Finnish corporations, society and culture – and to exchange ideas with Finnish business leaders and experts from different sectors. This year the seminar will be on 25-26 August.

Co-operation between EVA and its Junior Fellows, however, continues also after the meeting. Discussion and exchange of views are an essential part of the network's soul. EVA encourages Junior Fellows to write articles and in-depth analyses for EVA's website and occasionally, Junior Fellows contribute to EVA's publications. Thus, the international Junior Fellows network provides a forum for bright young people to acquire contacts and to discuss with Finnish business, political, media and opinion leaders as well as among themselves.

EVA selected last year 26 EVA Junior Fellows from 11 different countries. The Junior Fellows are 20-28 years olds, exceptionally talented students and young professionals with an international perspective on the world and strong interest in the Finnish business community and society. They are delightfully opinionated people who like to discuss and debate!
