Introduction

The 5-Week Summer Korean Language Program is designed for English-speaking students who wish to learn the Korean language and experience Korean culture during the summer. The program provides students with opportunities to learn contemporary Korean and discover traditional and modern aspects of Korean culture through various cultural activities.

The Language Education Institute [LEI] of Seoul National University has a long history of carrying out prestigious Korean language and culture programs. The institute has a reputation for managing intensive and widely-recognized programs such as the Malaysian Students Program, the Korean Language and Culture Program for Diplomats, the Keio University Students Program, and others.

Course Description

The course focuses on developing students' conversational skills through student-oriented projects and cultural activities.

The 5-week program is scheduled from June 27 to July 29, and students meet Monday through Friday, from 9:00 a.m. to 1:00 p.m. The class is divided into three levels: beginning, intermediate and advanced. Each class consists of about 12 students.

Credits may be transferred to several universities outside of Korea. Students need to verify in advance with their respective schools whether credits can be transferred from LEI-SNU to the corresponding university.
