

## ***India Study Abroad Center Announces Film and Media SPEED Program!***

Dear Friends,

The ISAC Film and Media SPEED Program had an overwhelming response from students across the world. Our December intake is filling up fast!

What could be better than to travel to Mumbai, India this winter, the best season to visit this beautiful, colourful and diverse country and spend a few weeks soaking up the Indian culture while navigating through Bollywood! Getting an insider's view of the world's largest film industry, meeting professionals and visiting live sets would be a truly unforgettable experience for anyone who loves the glitz and glamour, the sweat and blood of the big screen.

What's more, you also get to travel to the beautiful and tranquil hill station of Malavli over the weekend and go for treks to old forts and ancient Buddhist rock cut cave shrines dating back to the 2nd century AD.

Visit our website and find out more about our exciting SPEED programs today!
